

Biological Services Habitat Restoration Program

- ✿ Currently managing the implementation and monitoring of twenty-two re-vegetation / restoration projects throughout the City of San Diego
- ✿ Re-vegetation / restoration increases the coverage of sensitive native habitats such as coastal sage scrub within our region
- ✿ Promotion of the Biological Services Habitat Protection/ Restoration Program to other city departments...
 - ✿ Utilizes the expertise of our biologists and the native plant nursery
 - ✿ Saves City funds otherwise spent on environmental consultants
